M3 ISOLATION BASE

"The... Brinkmann Balance turntable System... and HRS M3 Isolation Base is - with the exception of the Rockport System III Series - the best turntable system I've ever heard."

*Michael Fremer
Stereophile - May 2005*

The **M3 Isolation Base** is a highly innovative design that eliminates noise revealing a new level of musical performance. It is manufactured from six different materials including two proprietary polymers, billet machined aircraft aluminums, and polished black granite. The M3 load range is matched to the component weight for maximum performance and can be modified in the future to preserve initial investment. This is a special product utilized by many audiophiles and industry professionals as their reference isolation solution.
